Lights

Description

Add these water activated LED lights to your flashers! These LED lights have been proven to attract all five species of salmon while trolling and will greatly enhance your catch.

They can also be added to jigs and other fishing lures to attract Halibut, Ling Cod and Lake Trout.

Each package comes with two LED Water activated lights, and a small wire cable used to attach your lights to existing flashers, jigs or lures. Colors include white, blue, and red.

Simple use of pliers will ensure they remain secure.

Check our new glow in the dark housing with a led light ampifierer that increases the glow colors in green, chartruese, white, and blue...is a killer on trout and salmon.
