

Preditor

The baddest thing to hit the fishing industry in years! LED lights attached to the flashers! These have already proved to out fish others.

Description

New PREDATOR series

comes with **8 lights** same color, in chartreuse, red, blue, green, or white lights

All plastic colors

For deep fishing I recommend my supper glows in the dark, with NO tape, tape on super glow is like putting a blanket on the glow, I think at 50 feet to 300 feet u will kick ass with this baby, available in super glow chartreuse, green, blue or purple.

When the fish have moved into deeper water this is a favorite of mine.
